OBJECTIVE

To achieve expertise in frontend development and the UI/UX domain and apply it to the benefit of the organization while expanding my personal skillset.

TECHNICAL SKILLSET

Angular | HTML | CSS | JavaScript | TypeScript | AEM | FreeMarker Template | Jest | Playwright | Cypress | Karma | Jasmine | Protractor | Jenkins

EXPERIENCE

ZoomInfo – Software Development Engineer 3 | March 2024 - present

ZoomInfo provides a plethora of products related in the Sales Intelligence space.

▪ Developed and maintained the Angular component library used company-wide, following the strictest quality checks and ensuring WCAG AA Accessibility compliance.

▪ Worked on diverse features on Websights, Account Fit Score, GTM Audiences etc on different products such as SalesOS, MarketingOS, and GTM Studio.

▪ Setup a pilot playwright E2E tests on feature libraries which served as a model for other teams to follow.

Amadeus Software Labs – Software Development Engineer 3 | July 2016 - March 2024

Transfers Engineering (June 2023-March 2024)

Amadeus Transfers is a multi-provider taxi and transfer solution covering more than one thousand destinations in 142 markets, helping travelers to overcome last-mile connectivity challenges.

▪ Develop libraries/widget modules in Angular providing transfers content for integration in third party applications.

▪ Analyze new requirements, implement features, and maintain transfers application on Amadeus Sell Connect.

▪ Onboarding interns and new joiners with knowledge transfer sessions and code reviews.

Air Canada Competency Center (September 2016-May 2023)

Amadeus provides Air Canada with a full suite of booking solutions. AC Competency Center implements and maintains the e-commerce website visited by 10k+ users daily.

- Design and implement features for an airline e-commerce website with Angular and AEM, as per their requirements in Agile methodology. Analyze requirement/product gaps and create feasible solutions.

- Ensure website is responsive and compliant to WCAG AA 2.1 and USDOT accessibility standards.

- Specifically worked on functional modules like seat selection, payment implementations including 3DS, and customer login solution partnering with AWS Cognito systems to provide single sign-on capability for various Air Canada vendors.

- Study and improve performance aspect of the e-commerce application.

- Attended PI events onsite interacting with various teams within Amadeus for planning of deliveries and dependencies.

- Integrate third party products and design and solution their incorporation into the website.

- Resolve production issues by analyzing logs and user recordings and provide on-call support for any critical outages.

- Debug deployment and content related issues on AEM and any CDN issues (Akamai).

- Implemented various email templates using Freemarker Template Language.

- Part of the team which conducted the migration of the backend services from IBM's legacy systems to the Amadeus PSS systems and provided critical onsite support for the cutover.

EDUCATION

B.Tech in Electronics and Communication Engineering from NIT Calicut: 8.99 CGPA.

ISC (12th): 95.6%

ICSE (10th): 96.1%.

AWARDS AND ACKNOWLEDGEMENTS

- SAFe 4 Practitioner certification (2018).

- High-Flyer Award in 2016, 2018, 2019, 2020, 2021 and 2022.

- Amadeus Dream Team award in 2019.

- Ranked 190 nationally in Tech Gig Code Gladiators 2022.
